Greetings From **The Team!**

Our founders, Lovensky and Breanna Jean-Baptiste, bring a combined 20 years of Forbes Five-Star hospitality experience to every guest interaction.

The spark came when Lovensky and Breanna gave a private tour of Los Angeles to the cast of NBC's hit show Young Rock. What started as a casual day exploring the city quickly turned into something more. The cast was so impressed by the experience that they encouraged them to turn it into a business. They did. Today, California Dream Tour is built on that same foundation: personal, elevated, and thoughtfully designed experiences that feel less like a tour and more like your client's perfect DREAM day in California.
